Call for applications Poet-in-Residence (Ebenböckhaus)

Application Deadline: 4 July 2022

Period of Residence: 09 January until 30 March 2023 (1 residency position)

The Munich-based Stiftung Lyrik Kabinett poetry library and ARTIST IN RESIDENCE MUNICH, Ebenböckhaus, are offering a joint three-month poet-in-residence position.

The poet-in-residence will be based at Ebenböckhaus and will work on a writing project, translation project or poetry-related theoretical project, making use of the collections held at the Lyrik Kabinett poetry library. Theory-based proposals are expected to explore discursive approaches in a broader sense rather than follow strictly academic purposes. With view to increasing the public visibility of poetry and furthering local exchange, the resident writer agrees to give a reading, workshop, or seminar at Lyrik Kabinett. They also agree to participate in at least one public event held at Ebenböckhaus.

Lyrik Kabinett

The poetry library Lyrik Kabinett (www.lyrik-kabinett.de), situated in proximity to Munich's LMU University, runs the second-largest library specializing in poetry in Europe. Its current stock of around 67,000 items embraces German-language and international poetry from all periods. We systematically collect a selection of poetry publications and literary criticism, but not secondary literature in a strictly academic sense. Furthermore, we hold a collection of valuable rare artists' books (ca. 3,000 volumes and objects).

Ebenböckhaus

The Ebenböckhaus is situated in the heart of Munich's Pasing district and has excellent transport connections and amenities. On the first floor of its middle wing and measuring over 150 m², the apartment offers individual rooms (fitted with a lock) for three guests and access to a shared kitchen and bathroom. Within the apartment there are a further three rooms available as studios and exhibition venues (52 m²). The park surrounding the house and the gallery leading to the park itself can also be used for events – in coordination with the other users in the house (photos: www.air-m.de/gallery).

Stipend

The writer-in-residence will receive a monthly stipend of €1200.- and rent-free accommodation (incl. their own kitchen and bathroom) by the City of Munich; they will be reimbursed for the use of a monthly pass for public transport in Munich. Travel costs to and from Munich (economy / 2nd class) will be covered by Lyrik Kabinett, and the resident writer will receive a fee for the reading, workshop, or seminar given at Lyrik Kabinett.

Application

Applicants should have good written and spoken command of English or German. Please submit your application in English or German as a pdf document to [l.jeschke\[at\]lyrik-kabinett.de](mailto:l.jeschke@lyrik-kabinett.de) by **4 July 2022**, including the following components (max. 2 pages each):

- artist's statement incl. project description (mentioning the project's relation to Lyrik Kabinett holdings; please see our catalogues: <https://www.lyrik-kabinett.de/en/library/catalogue/>),
- bio incl. list of publications (minimum requirement one book or two chapbook publications),
- sample of work.

Please do not include an application photo. We welcome submissions by applicants of all nationalities, religions, sexual identities, age groups and social backgrounds. The Ebenböckhaus residences are not wheelchair-accessible. Applicants must reside outside of Bavaria. We regret that we are unable to accept applications from people who have previously held residencies at either Villa Waldberta or Ebenböckhaus.

Jury and selection process

The selection is made by a committee consisting of representatives of Lyrik Kabinett and ARTIST IN RESIDENCE MUNICH. Applicants will be notified by the end of July 2022.

Covid-19 pandemic

We reserve the right to modify these conditions or cancel the project in response to developments in the Covid-19 pandemic.

Data protection and email communication

Your data will be used in accordance with the applicable statutory regulations. Please be aware that our email systems are unencrypted and we are therefore unable to rule out security vulnerabilities.
